AK47s and AR15s are the best options.

400 rounds per person is recommended, you will get the most out of the day. 200 rounds minimum.

Each rifle should have:

Quality set of sights

Sling (I will bring quality two point slings they can buy for \$25. I sew them by hand)

Three magazines (more magazines is always better)

Other gear needed:

LOTS OF WATER

Gatorade

Eye protection

Ear protection

Closed toe shoes

T shirts, or shirts that won't allow hot brass to fall inside.

Baseball cap

Note taking gear

Everyone must watch the firearm safety video before class:

Looking forward to Sunday!

We are wondering what types of rifles are needed .

My wife son and I all have CORE rifle systems truck guns like a smaller AR shoots 223/556.

I also have an AK that shoots 762

The others all have ARs

Also how much ammo is recommended per person

Looks like 6 right now the names you have .
The last 2 haven't confirmed

Hey Kelly!
I see you have already purchased your private training.
What classes did you want to do?
How many students will be there?
What are their full names?
How many people need rental guns and gear?
Looking forward to class!
